Study and home office

From a corner of a bedroom to a dedicated room — desk depth, light direction and cable management resolved before anything is built.

- ◆ Desk depth of at least 24 in
- ◆ Window to the side, not in front of the screen
- ◆ Shelving that takes books, not only files
- ◆ Dedicated power and concealed cable routing
- ◆ Acoustic panelling behind the chair where the room is used for calls

Every design has a code

Note the reference codes you like — STU-001, STU-014 — and send them to us. We adapt the design to your own room dimensions and quote it line by line.

From the code on a page in this catalogue to a finished room, under one supervisor. The consultation, the site measurement and the first design presentation are free.

01

Choose a design

Note the reference code under any design in this catalogue.

02

Send it to us

WhatsApp the codes with your floor plan or flat details.

03

Site measurement

We measure the actual room – not the builder's drawing.

04

Design & 3D

The design adapted to your dimensions, shown in 3D before approval.

05

Itemised quotation

Material, quantity, hardware and labour on separate lines.

06

Execution & handover

Built, installed and snagged under one supervisor.
